

New Innovative Mechanical Stretch Yarn

Through the innovative assembling technique, ReFlex yarn carries natural elasticity that enhances snagging and abrasion resistance as well as its breathable and rich handfeel material in comfort wear. Able to replace low elastane content fabric in order to achieve mono material component where it is 100% sustainably recyclable.

Features

Good elasticity

Dry and comfortable , smooth and soft hand - touch

Good wrinkle resistance

Good drapeability

Good stiffness

Weight reduction to the maximum of 25% and make the lighter fabric

Application

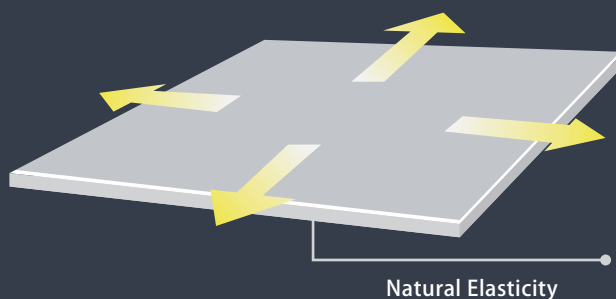

Sports & outdoor wear

Fashion & city wear

Uniform & workwear

ReFLEX
