

THERMALON II[®]

Dyeable Heat Warm Nylon Yarn

Thermalon II[®] is the nylon 6 yarn with natural mineral additives and can convert the body moisture to natural heat. By this modified chemical, the heat is retained any-time and suitable for any colors of dyeing.

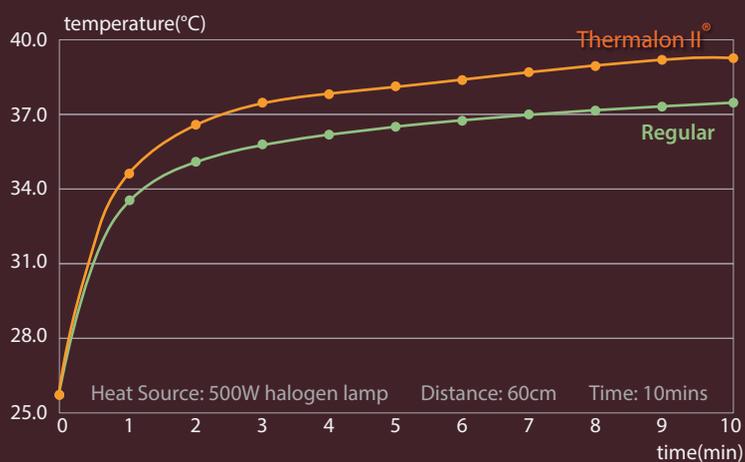

Features

-  100% natural mineral and skin-friendly
-  Permanent effect and unaffected by washing
-  Good heat insulation from body temperature
-  Micro particles absorb body vapor and provide comfort
-  Similar to regular nylon dyeing (white nano additive)

Application

-  Underwear, sports & casual wear
-  Swimwear
-  Bedding
-  Hat, scarf, gloves, and socks
