

Engineering Plastic Nylon Chip

LIBOLON Modified Nylon 6 is our Nylon commercialized product. We have stable quality and excellent formability provide our customers for various application.

Feature

Product	Series	Product Characteristics	Application
General Grade	<ul style="list-style-type: none"> • Compounding • Extrusion 	<ul style="list-style-type: none"> • Excellent mechanical and impact properties 	<ul style="list-style-type: none"> • Compounding • Monofilament • Tire cord
Additive Grade	<ul style="list-style-type: none"> • Injection 	<ul style="list-style-type: none"> • High flowability and excellent formability • High colouring • Shorter injection time 	<ul style="list-style-type: none"> • Fastener • Plastic anchor • Hook • Cover • Baby carriage armrest • Machine tool • Nylon wheel
	<ul style="list-style-type: none"> • Extrusion 	<ul style="list-style-type: none"> • High transparency • High strength and abrasive resistance • Stability and formability 	<ul style="list-style-type: none"> • Fishing net • Film • Tube • Sheet
Elastic Grade	<ul style="list-style-type: none"> • Injection • Extrusion • Compounding 	<ul style="list-style-type: none"> • Excellent chemical solvents resistance • Toughness and impact resistance modified 	<ul style="list-style-type: none"> • Pipette filler • Tube • Impact part • Compounding
Recycled Nylon	<ul style="list-style-type: none"> • Extrusion 	<p>Global Recycled Standard certification</p> 	<ul style="list-style-type: none"> • Fishing net • Spun bond • Carpet yarn • Tire cord
